YOUNG SCHEMERS

Alleged to Have Formed a Combine to Snatch Purses.

One Ordered By Judge Sanders to the Reform School.

The case against Johnnie Stephens, Coots Eggleston and Bernard Edners, all small white boys under the age of 12 years, attracted the greatest amount of attention and interest in police court this morning, and terminated in Judge Sanders ordering the Stephens boy taken to the reform school, and a severe reprimand to the other two.

These three boys had formed a combination during the carnival to snatch pocketbooks, it seems. Stevens succeeded in securing that of Miss Hoover, of the Little Spoke factory. She saw the boy as he ran away and gave the officers a good description of him. They finally worked the case up and secured his confession. The boys divided \$5.06 among themselves and hid the pocketbook. They admitted that they snatched other pocketbooks but secured little money. Judge Sanders held the Stephens boy over and later decided to order him immediately to the reform school, and agreed not to take any action against the other two boys whose parents were present in court and promised to reform them.

Sheriff Lee Potter will take the youth to Lexington to enter him in the reform school as soon as he returns from Wickliffe where he has gone to take Tom Hall.

Ollie Rice, colored, was acquitted on a charge of vagrancy.

Upshaw O'Brien, charged with shortchanging, was fined \$5 and costs and a warrant for petty larceny dismissed.

Thomas Kelley, colored, was held to answer for false swearing. He swore he did not have a pistol concealed and it was proven he did.

Will Sanders and Andy Long were fined \$5 and costs each for a breach of the peace.

J. C. Gayle was fined \$1 and costs for drunkenness.

The case against Homer Roberts of Louisville, for alleged attempted robbery, was continued until Saturday.

SPEED RECORD MADE

BY THE ILLINOIS CENTRAL
TRAIN CARRYING PASSENGER
AGENTS TO NEW
ORLEANS.

What is said to be the most remarkable run ever made over a southern railroad line was the rate of speed attained by the special carrying the members of the American Association of General Passenger Agents from Memphis to New Orleans. The time was divided as follows: 189 miles in 187 minutes, 105 miles in 90 minutes, including stops, and 396 miles in 420 minutes, exclusive of stops. In several places and for short distances of one mile and under, the speed indicator registered 94.4 miles per hour.

This is said to be within six-tenths of a mile of being as fast as it is possible to run a modern passenger train. The Pennsylvania system has the record for the fastest train time ever made.

The train handled by the Illinois Central consisted of an engine, buffet, library car, diner, five standard Pullmans and an observation car. The total weight of the train was 1,101,000 pounds.

KENTUCKY BUILDING

IT IS HALF COMPLETED—AMOUNTS SUBSCRIBED.

The Kentucky state building at the world's fair in St. Louis is now half completed, is entirely under roof and will be ready to turn over to the board of directors of the Kentucky Exhibit association about December 1.

President Ford, chairman of the general finance committee, reports of the finances that there is subscribed to the fund up to this time \$20,340.52 and that several thousand dollars additional are in immediate prospect.

RED MEN'S PROFIT

IT WILL GO OVER \$1400 FROM INDICATIONS.

Secretary J. J. Freunlich, of the Red Men's Amusement association, last evening secured enough figures to enable him to guess in the neighborhood of the amount that will be cleared by the Red Men from the carnival last week. It will probably be in the neighborhood of \$1400, although all accounts are not yet in. The amount of profit thus far, with some accounts outstanding is \$1461.

HAS LIVED TWO WEEKS—The condition of Charles Allison, who lies shot in the back at the city hospital is about the same. The doctor is puzzled over the length of time Allison has lingered, but says he does not consider Allison's chances of recovery favorable.
